PROFESSIONAL SUMMARY

Aspiring software developer with skills in Python, AI integration, and web application development. Hands-on experience in building a context-aware medical chatbot using Gemini LLM, Pinecone, and Streamlit. Passionate about creating user-friendly solutions that enhance accessibility and deliver impact in technology driven projects.

PROJECTS

- **AI-Powered Medical Chatbot with RAG**
Designed and implemented a context-aware medical chatbot using Google Gemini 2.5 Flash *LLM* and *Pinecone* vector database for retrieval-augmented generation (RAG).
Integrated *Hugging Face* embeddings and *Streamlit* UI to deliver structured, patient-friendly responses.
 - **Real-Time Chat Application using WebSocket**
Designed and implemented a client-server chat system using *WebSocket* for persistent, bidirectional communication.
Built the server in *Node.js* with the *ws* library to handle multiple concurrent connections and broadcast messages in real time.
-

TECHNICAL SKILLS

- Programming Languages: Python, C, C++
 - Databases: MySQL, Pinecone(Vector Database)
 - Web Technologies: HTML, CSS
 - AI/ML Techniques: RAG, Generative AI, LLMs
-

SOFT SKILLS

- Quick Learner
 - Adaptability
 - Teamwork
-

CERTIFICATION COURSE

- 100 Days of Code – The Complete Python Pro Bootcamp — Udemy
 - Python Programming – Scaler
-

EDUCATION

- **MCA (2024-2026)** - Anna University, Tiruchirappalli
CGPA: 7.6
 - **B.Sc. (2021–2024)** - Aditanar College of Arts and Science, Tiruchendur
CGPA: 7.47
 - **HSC (2020–2021)** - Ramaseshwar Higher Secondary School, Pattamadai
Percentage: **86%**.
 - **SSLC (2018–2019)** - Shanmuga Sundara Nadar Higher Secondary School
Percentage: **85.4%**
-

HOBBIES

- Problem-solving (Coding challenges, Puzzles)
- Chess
